# Company Profile

Qingdao Ruly Plastic Industry company limit, a Combined enterprise based in Qingdao, Shandong, specializes in mechanical and electrical equipment and packaging products. Our company features extensive production capabilities with four plastic bucket lines and nine plastic production lines, producing up to 20,000 units daily. Spanning over 4,900 square meters, we employ 51 dedicated staff, including a team of advanced R&D engineers specializing in custom design and material replacement. We pride ourselves on our quick turnaround for new products and maintain stringent quality control with five inspectors. With a wide range of customization services and years of engineering experience, we guarantee products that meet client specifications and industry standards. Qingdao Ruly Plastic Industry company limit delivers an annual output of millions of units, serving diverse clients such as retailers, engineers, and wholesalers. Our markets include North America, South America, Southeast Asia, Oceania, and Western Europe, accounting for 60% of our revenue. We offer after-sales support to ensure customer satisfaction. Our company is recognized with several industry certificates including FDA, CA Prop 65, EU inspection reports, demonstrating our commitment to quality and safety standards.
