

**青岛瑞亿达塑业制品有限公司**

**Rulyda Plastic Manufacture----One stop Plastic  
manufacturer in China**

# Our company

*We have 12 years of experience in the production of plastic products, our headquarters is located in the beautiful coastal city of Qingdao, Shandong Province, with more than 2000 square meters of wholly-owned factory. Company employees more than 100 people ensure pre-sales, after-sales service; experienced design team to meet your individual needs; Advanced equipment for you to ensure product quality.*

Save space=save shipping costs

## crate testing

**Storage test** at high temperature of 60 °C for 8 hours  
Low temperature (-20 °C) for 8 hours.

**drop test** Weigh 25kg, drop height 550mm, test each side and bottom edge separately

**Stress resistance test** Pre load of 23kg,  
pressure load of 150kg.

**Put leftover food and garbage into the frame, leave it for 24 hours, and rinse it with a water gun for 2 minutes before leaving no traces.**

1. *Ventilation and preservation*
2. *Smooth, clean, and hygienic on both sides*
3. *Elastic buckle double safety*
4. *High stability and low loss rate*
5. *Customizable logo colors*
6. *Stackable and foldable*

Widely used in various industries such as food retail supply chain, it is acid and alkali resistant, oil resistant, non-toxic and odorless, and can be used to store food. It is easy to clean, easy to turnover, neatly stacked, and easy to manage. Suitable for the complex and tedious needs of product transportation, distribution, sorting, storage, display, etc., it greatly improves the efficiency of logistics warehousing.

## Ordinary plastic folding crate

Low load-bearing capacity, easy to crush baskets during long-distance transportation, causing fruit damage

The foam box is non recyclable and non degradable, Cannot be recycled and causes significant pollution

The cardboard box is prone to deformation due to moisture and cannot be recycled, Disposable, high cost for long-term use
